

Aebad Humair

Quality Assurance Manager

Profile

Quality Assurance professional with proven experience in retail surveillance, compliance monitoring, and team leadership. Started career as a Quality Assurance Officer at Active8 Wireless, ensuring operational accuracy, SOP compliance, and risk identification. Progressed to a Quality Assurance Trainer role at BOS9, where I trained and mentored new hires, strengthened quality standards, and improved team performance. Within three months, promoted to Quality Assurance Manager in recognition of strong leadership, training effectiveness, and ability to manage trainers and team leads while driving continuous quality improvement and operational excellence.

Work Experience

● Oct 2024- Present

Back Office Support (BOS9)

Manager - Quality Assurance

As a Quality Assurance Manager, I lead and oversee the entire QA function, including trainers and team leads, to ensure the highest standards of quality, compliance, and operational excellence. I am responsible for developing QA strategies, setting performance benchmarks, and ensuring all surveillance, audit, and reporting activities align with company policies and SOPs. I manage, mentor, and evaluate trainers and team leads, providing leadership, coaching, and corrective guidance where needed. Additionally, I review critical cases such as fraud risks, cash discrepancies, and policy violations, ensure timely escalation and resolution, and collaborate with senior management to drive continuous improvement across quality assurance operations.

Trainer / Team Lead - Quality Assurance

As a Quality Assurance Trainer, I train and lead new team members by providing comprehensive guidance on QA standards, processes, and company policies. I conduct hands-on training sessions, monitor their performance, and ensure they understand surveillance procedures, compliance requirements, and reporting standards. I mentor trainees to improve accuracy, observation skills, and decision-making, while maintaining high-quality benchmarks. Additionally, I support the team by addressing queries, giving constructive feedback, and helping new hires adapt quickly to operational and quality expectations.

● May 2024 - Sep 2024

Active8 Wireless

Officer - Quality Assurance

Store operations were closely monitored through CCTV and in-store observation to ensure accuracy, customer service excellence, and compliance with Metro by T-Mobile standards. This included identifying suspicious activities, cash-handling irregularities, potential fraud, and SOP violations, while verifying correct customer data entry to improve activation accuracy. Store displays, marketing materials, and branding were regularly checked for visual compliance. Detailed daily surveillance reports were prepared, highlighting compliance status, operational issues, and critical cases for timely corrective action. Additionally, basic Spanish language training was completed to better assist Spanish-speaking customers and enhance overall service quality.
